PROFESSIONAL SUMMARY

UX/UI Designer and Front-End Developer with a background in Product Management and experience creating user-centered digital solutions. Skilled in translating user and business needs into clear, functional, and responsive digital experiences.

Experience working across the product development process, including requirements gathering, stakeholder communication, feature prioritization, UX/UI design, interface development, usability improvement, and continuous optimization.

Combines a user-centered design approach with technical knowledge of HTML, CSS, JavaScript, REST APIs, responsive design, accessibility, and reusable components. Strong interest in creating intuitive digital products and improving customer experiences through design, technology, and product thinking.
